Don't litter in the nature.

Respect the winter sports region. Thank you for your understanding!

WEATHER MICROCLIMATE STOOS – MUOTATAL

FASCINATING WEATHER: The beauty and power of nature
The Stoos-Muotatal region has a close relationship with its weather, due to the frequent and dramatic extremes it experiences. From föhn-blown storms on Lake Uri to record freezes on the Glatt Alp; from downpours in the Bödmeren forest to long sunny days on the sun terraces Stoos and Illgau – the weather can vary dramatically over the space of just a few miles.

WETTERSCHMÖCKER
The home-grown "Wetterschmökler", sometimes known as the "Muotathaler Wetterfrösche", or "Weather frogs", is a group of hobby meteorologists from the inner Swiss region. Their own observations of nature are certainly an ingredient of their weather forecasts, but the exact recipe is a well-guarded secret. Learn more during an entertaining talk about the weather.

GROUP EXCURSIONS

ACTIVE GROUP EXPERIENCES
Experience active adventures with your group in the breathtaking nature of the Stoos-Muotatal Valley region. Whether it's on a guided snowshoe tour or an action-packed sled dog ride with the Huskies, an expedition into the hidden world of the Höllloch cave is a must. The group spirit is put to the test during the Winter Olympic Games and Winter Team Challenges.

HISTORY AND CULTURE
Get a behind-the-scenes look at the construction of the world record funicular railway and learn more about the history of the village of Stoos. Discover regional and environmentally friendly power production at the ebs AG power plant, or feel the uniqueness of yodeling in a workshop with Bernard Betschart.

MEETINGS AND SEMINARS
The seminar houses Mattli Antoniusshaus, Stoos-Lodge, Swiss Holiday Park, and erlebniswelt muotatal GmbH offer the ideal setting for a successful meeting with their modern infrastructures.

RELAX AND RECHARGE

WELLNESS HOTEL STOOS***
